Presents:

INTRODUCTION TO ESOTERIC HEALING – PART 1 November 10-13, 2017

This class is the first in a series of four classes that teach the principles and techniques of Esoteric Healing. This method assesses and treats the human energy field, which forms the exact replica of the physical body. It is the “Electrical System” which vitalizes and controls the physical body. The human energy field contains 7 energy centers (chakras), minor centers, and four vibratory levels that work together to bring about health and or disease. In this course you will learn:

- the relationship of physical and energy (esoteric) anatomy
- methods of assessing the energy centers
- methods of assessing the different vibratory levels within the energy field
- specific treatment procedures for energetic blocks and restrictions within the energy field
- principles of spiritual healing

These classes are open to anyone interested in learning about principles of spiritual healing and energy anatomy—there are no prerequisites or knowledge of anatomy needed - just an interest to learn and enjoy!!
